

# FANS

## 1. CEILING FANS

- ❖ Ceiling fan is a familiar electrical appliance with a cooling function used in the home and is often hung on the ceiling of a living room or bedroom.
- ❖ Depending on the type of classic or modern fan, there will be additional utilities such as remote control, timer mode, decorative lights, lights, etc. Based on the above comparison table, we can easily see it. that the more blades the fan, the more the price will be set and the fan weight is also different. However, according to the actual feedback from customers, the more blades the fan has, the cooler it will be compared to the fan with fewer blades. The fan durability depends on the fan manufacturer and the electricity bill compared to the power consumption of the fans is not much different.

- ❖ List of products:

### **No1. Crompton Briz Air 24" Brown Ceiling Fans**

Selling Price: Rs. 1460

You Save: Rs. 540.00 (27.00%)

## 2. PEDESTAL FANS

- ❖ Standing Fans are fans used on a flat surface such as the floor. The fan is designed to create horizontal airflow. The fan usually has 3 wind speeds adjusted by the button on the fan body.
- ❖ The standing fan moves flexibly to the position of use. Designed higher than the table fan, creating a much larger cooling range. Another advantage is that it can be disassembled and cleaned very conveniently, this helps people use save time cleaning
- ❖ List of products:

**No1.** Crompton High Flo Wave Plus Pedestal Fan

Selling Price: Rs. 2860

You Save: Rs. 760.00 (20.99%)

(Price Inclusive of GST)

- The 16 inch Crompton Supreme Oscillating Stand Fan with Remote is made to serve any home, greenhouse or shop's air movement needs; conveniently control speed and oscillation with the included battery-powered remote
- 4-SPEEDS: This quiet, yet powerful, 4-speed motor fan runs at 1201 CFM and 1350 RPM; provides 90° side-to-side oscillation or can be locked in non-oscillating position
- DURABLE & SAFE: The sturdy base provided additional stability for the fan during its operation. The built-in overheat protection automatically switches the fan off when the motor overheats.

## No2. Crompton Wind Flo (Hi-Speed) Pedestal Fan

Selling Price: Rs. 3375

You Save: Rs. 375.00 (10.00%)

(Price Inclusive of GST)

- **NEW VERSION:** Upgraded Pelonis pedestal fan is equipped with a more powerful motor and high-quality blades, it makes cooling more efficient and energy-saving. This standing fan with 3 speed settings and 7-hour timer with Auto Shut-off for wide area cooling in medium to large rooms. It generates strong airflow to boost the cooling effect while operating at a low noise level in any room in your home.
- **WIDE ANGLE OSCILLATION:** The 85° wide oscillation angle provides versatility for personal or the entire family's use. The direction of the airflow could aim anywhere between the floor and the ceiling through tilting the angle of fan head. The wide-angle oscillation can accelerate air circulation and quickly cool the room in your home helping to increase your comfort.
- **ADJUSTABLE & EASY TO USE:** The user-friendly front operation panel and remote control makes it possible to obtain full range control over our product, and provides a unique and customizable experience. The height of the fan can be adjusted between 3.5 to 4 feet and the tilt-back head allows you direct the airflow where you need it to provide comfort throughout your home or office.
